# Taking charge of our Health and Social Care

in Greater Manchester

There's a role for everyone to take charge and responsibility.

What stops or helps people from taking charge of their health?

#### Our goal is to see...

...the greatest and fastest improvement to the health, wealth and wellbeing of the 2.8 million people in Greater Manchester.

## What devolution means for Bury Our Locality Plan

Our Locality Plan is Bury's response to devolution. It outlines our proposals for health and social care services in the borough for the next five years

#### **Redesign & Improve Services**

- Change the way we commission
- services & from whom
- Redesign services so that they areefficient, effective, fit for purpose &
- meet the needs of our people
- Identify ways to improve access to
- health & care services to support
- you and your family

#### Prevention & Early Intervention

- Invest in services that will help
- people to stay well, improve
- wellbeing and quality of life
- Undertake early intervention and
- prevention work with vulnerable groups reducing demand for services,
- social care costs, nursing/residential
- care costs, hospital admissions &
- demand for primary care

#### Move services into Community

- Move services out of hospitals into
- locality hubs at the heart of local
- communities
- Services delivered closer to homes
- with only specialist services &
- critical care provided at hospitals
- Improve 7 day GP access, hospital
- discharge and A&E facilities

#### Help People to Self Care

- Reduce demand for health & social
- care services; encouraging residents
- to change the way they behave and
- access services
- Support and identify ways in which
- people can take responsibility
- for their own health & social care,
- thereby easing pressures on local
  - services
