## About the street tree pruning programme

We have a street tree pruning programme for trees growing along the roadside. These trees are inspected regularly and a programme of pruning work is carried out by specially trained staff every five years. This leaflet sets out the five year programme from 2021 to 2025.

## Why we prune trees

We prune trees to:

- maintain their health and safety;
- prevent physical damage to property; and
- ensure roads and streets are kept clear.

Sometimes we have to remove a street tree. If we do we will try to replace it but this will depend on the condition of the site and if funding is available.

When we carry out work on trees we use modern equipment and pruning techniques. We do not carry out lopping, topping or pollarding.

## How to contact us

You can enquire about street trees or report a problem as follows.

#### **Visit our website:**
