

Hoyle Nursery School 2024 – 2025 – Training Package

Attention Autism – Children with Autism may struggle to develop joint attention and attend to an activity with the adult in order to learn. This training will develop your skills and confidence working with children with ASD and children with social, communication and language delay. It focuses on the practical aspects of delivering Attention Autism sessions and 1:1 interventions. You will spend time with our skilled and experienced staff demonstrating techniques, practical hands on activities, peer support, theory, help with planning and classroom observation.

This course is for any Early Years practitioner from either school based, private, voluntary or independent sector settings. Sessions will start at 12pm and finish at 1.30pm. Each session will cost £35.00. Booking ALL sessions is recommended to benefit from seeing progress. This will be at a discounted price of £180. Sessions will be allocated on a 'first come, first served' basis as there will only be 4 places available on each session. This will enable us to support your individual needs bespoke to your setting. All sessions will include theory and discussion time; time to observe practice in the classroom; support with planning and time to speak with staff.
