1 Introduction

1.1 Background

- 1.1.1 To enable the development of Bury's neighbourhood renewal strategy and to support effective neighbourhood management Team Bury has commissioned a detailed report on each of the borough's six Local Area Partnerships.
- 1.1.2 These reports are based around the Index of Multiple Deprivation (IMD) but include other data set from other bodies such as the council, Police and PCT.
- 1.1.3 IMD is a measure of deprivation and has seven distinct dimensions which are experienced by individuals living in the area. This report is structured around these seven domains of deprivation.
- 1.1.4 The IMD reports at the Super Output Area (SOA) Level, an area defined within the Census and represents on average around 1,500 residents. Where available and statistically valid the report reports the data to this level of granularity. Where other relevant data does not allow SOA analysis they have been used to report at the Local Area Partnership Level.

(C) Crown Copyright. Bury MBC 100023063/2006

2 Demographic Overview

2.1.1 Bury West consists of the two wards: Church Ward and Elton Ward.

2.1.2 The resident population of Bury West at the time of the last census was 21,377, representing 12% of Bury's population.

2.1.3 Bury West had a slightly older age profile than the borough and the North West as a whole, with a heavier representation in the 50-64 age groups in particular.

	Bury West	Bury	North West
Average Age	39.1	38.1	38.6
Median Age	38.0	36.0	37

(Source: Census 2001)

2.1.4 Bury as a whole mirrors quite closely the ethnicity of the North West region. Bury West has a relatively small percentage of residents from ethnic minority backgrounds.

	Bury West	Bury	North West
White: British	95%	91%	92%
White: Irish	1%	2%	1%
White: Other	1%	1%	1%
Asian (/British): Pakistani	1%	3%	2%
Other	2%	3%	4%

All groups that represent less than 1% have been aggregated into "Other".

(Source: Census 2001)

2.1.5 Bury West had the highest proportion of adults that were retired of all the Local Area Partnerships. Bury West also had one of the lowest unemployment levels; Ramsbottom, Tottington and North Manor has marginally less unemployed adults.

	Bury West	Bury	North West
Employed	66%	63%	58%
Unemployed	2%	3%	4%
Retired	15%	13%	14%
Students	5%	6%	7%
Looking after home / family	5%	5%	6%
Permanently sick	5%	7%	8%
Other economically inactive	2%	3%	3%

(Source: Census 2001)

2.1.6 When residents were asked to describe their health over the preceding 12 months, 69% described their health as 'good'. This is very similar to the overall average for Bury, 68%.

(Source: Census 2001)

2.1.7 Bury West had the lowest proportion of all Local Area Partnerships of residents living in one adult households.

	Bury West	Bury	North West
Lone Pensioner	13%	14%	15%
One family, all pensioners	9%	8%	8%
Lone Adult	12%	15%	16%
Couple, dependent children	25%	23%	21%
Couple, non-dependent children	9%	7%	7%
Couple, no children	20%	17%	16%
Lone Parent, dependent children	6%	7%	8%
Lone Parent, non-dependent children	3%	3%	3%
Other household with dependent children	2%	2%	2%

(Source: Census 2001)

2.1.8 4.4% of Bury West's households are overcrowded, compared to a borough average of 4.9%.

(Source: Census 2001)

2.1.9 There is relatively high levels of home ownership when compared against the borough and North West averages. Only Ramsbottom, Tottington and North Manor of the six Local Area Partnerships has a higher level of home ownership.

	Bury West	Bury	North West
Own Outright	33%	30%	30%
Own with mortgage	49%	45%	39%
Shared ownership	0%	0%	1%
Rented, Council	9%	11%	14%
Rented, Housing Assoc	2%	5%	7%
Rented, Private Landlord	4%	6%	8%
Rented, Other	2%	3%	3%

(Source: Census 2001)

3 Index of Multiple Deprivation

3.1 Definition

3.1.1 The IMD 2004 is a measure of deprivation at a small area level. The model of multiple deprivation which underpins the IMD 2004 is based on the idea of distinct dimensions of deprivation which can be recognised and measured separately. These include domains such as employment, health and education. These are experienced by individuals living in an area.

3.1.2 Each dimension is measured independently using the best indicators available to generate a score of domain index. The overall IMD is conceptualised as a weighted area level aggregation of these specific dimensions of deprivation. The weightings are given as:

• Income Deprivation	22.5%
• Employment Deprivation	22.5%
• Health Deprivation	13.5%
• Education, Skills and Training Deprivation	13.5%
• Barriers to Housing	9.3%
• Living Environment Deprivation	9.3%
• Crime	9.3%

3.1.3 The index reports at a small area called Super Output Areas (SOA), which represent around 1,500 residents. In England there are 32,482 SOAs; each is given a rank on each domain of deprivation where a rank of 1 is the most deprived area, and the area with a rank of 32,482 is the least deprived. The indices facilitate comparative assessment of the relative position of small areas, they do not measure absolute change.

3.1.4 There are 120 SOAs in the borough. In Bury the SOA with the highest level of deprivation was Chesham Fold in Bury East which ranked 595 on the national scale. Overall 11 SOAs in Bury fell within the 10% most deprived nationally and 24 fell within the top 20%. The most deprived SOAs were widely dispersed across the Borough, the main concentrations being in East Bury, Radcliffe and the former Besses Ward.

3.1.5 At the other end of the scale, the least deprived SOA is based around the Holcombe Road area in Tottington. This SOA was ranked 30,447 out of a total of 32,482 SOAs nationally. Only 3 SOAs in Bury fell within the 10% least deprived nationally, and a total of 7 SOAs fell within the 20% least deprived areas.

- 3.1.6 A feature of the data in Bury is the relative proximity of extreme values.
- 3.1.7 Data on each of the domains indicated that Bury performed relatively well in the Education and Housing domains, but less well on the indicators for Health, Crime and Living Environment compared to the national picture.
- 3.1.8 Summary measures of the Index of Deprivation (ID 2004) are presented at District Level. Bury's IMD average score gave it a national rank order of 97 out of 342 districts in England. Despite its relative affluence in comparison to its neighbours in Greater Manchester, Bury is actually quite deprived. This shows particularly on the national scale for local concentration for which Bury was ranked 81st nationally and on the two measures of income deprivation and employment deprivation, in which Bury ranked 82nd and 72nd respectively. On all three of these measures Bury was within the 25% most deprived districts in the country.
- 3.1.9 If you require any further information, please contact Kathy Hoyle, Research and Consultation Co-ordinator, Chief Executive's Dept. Tel 0161 253 5121, email k.hoyle@bury.gov.uk.

3.2 **Bury West**

3.2.1 Each of Bury West's 14 SOAs has been allocated a geographical description.

SOA Code	Name
E01004947	Whitehead Park
E01004948	Daisyfield
E01004949	Chantlers
E01004950	Lowercroft
E01004951	Bolton Road
E01004952	Seddons Farm
E01004953	Elton Vale
E01004961	Woodhill
E01004962	Woolfold
E01004964	All Saints
E01004965	Brandlesholme North
E01004966	Brandlesholme Estate
E01004967	Brandlesholme East
E01004968	Kirklees

3.3 Bury West's Index of Multiple Deprivation

- 3.3.1 The data from the IMD shows there are only a couple of Bury West's SOAs in the lowest ranked 30%. These SOAs are Brandlesholme Estate and Daisyfield. The Brandlesholme Estate SOA is the 24th most deprived in the borough, and Daisyfield is the 30th.
- 3.3.2 8 (57%) of Bury West's SOA fall within the highest ranked 50% of Bury's SOAs, and 4 (29%) fall within the top 10%.
- 3.3.3 A similar result is shown when Bury West is compared against the England's SOAs.

% Bury West's SOA are in the		
Bottom 10% of Bury	Bottom 30% of Bury	Top 30% of Bury
0%	14%	57%

% Bury West's SOA are in the		
Bottom 10% of England	Bottom 30% of England	Top 30% of England
0%	21%	50%

Index of Multiple Deprivation - All Domains

3.4 SOA Rankings

- 3.4.1 Bury West has a low proportion of its SOAs within the lowest ranked 30% across most of the domains. Within the Income, Employment, Health and Education domains it is the same two SOAs that consistently appear in the 30% most deprived.
- 3.4.2 Given their nature Income Deprivation and Employment Deprivation seem to be highly correlated, but it appears that Health and Education are also very closely linked to these domains.
- 3.4.3 Within the Crime domain, Bury West appears to do relatively well with the lowest ranked SOA at 40th.
- 3.4.4 Bury West does the less well in the Housing and Living domains.
- 3.4.5 Barriers to Housing & Services domain is defined by access to housing ownership and access to essential local services.
- 3.4.6 3 of the Local Area Partnerships SOA fall within the borough's most deprived 10% in the Living domain.
- 3.4.7 The table ranks each SOA within the whole borough. A rank of 1 shows the neighbourhood is the most deprived and a rank of 120 indicates the SOA is the least deprived in the borough.

SOA	SOA Description	Overall	Income	Employment	Health	Education	Housing	Crime	Living
E01004966	Brandlesholme Estate	24	12	18	21	22	68	64	97
E01004948	Daisyfield	30	30	31	26	26	69	46	41
E01004947	Whitehead Park	38	44	45	43	38	101	54	4
E01004964	All Saints	42	50	54	40	46	81	40	8
E01004962	Woolfold	59	76	79	60	31	83	60	10
E01004961	Woodhill	60	41	49	52	62	18	99	108
E01004953	Elton Vale	98	84	102	94	90	118	51	103
E01004951	Bolton Road	102	104	91	89	94	76	93	96

Lowest 10% of Bury's SOAs

Lowest 20% of Bury's SOAs

Lowest 30% of Bury's SOAs

4 Income

4.1 Definition

4.1.1 Two (14%) of SOAs fall within the 30% most deprived SOAs on the Income Domain of the IMD; the Brandlesholme Estate falls into the 10% most deprived SOAs.

4.1.2 Half of the Local Area Partnerships' SOAs fall within the borough's 50% least deprived SOAs.

4.1.3 A similar result is shown when Bury West is compared against the England's SOAs.

% Bury West's SOA are in the		
Bottom 10% of Bury	Bottom 30% of Bury	Top 30% of Bury
7%	14%	50%

% Bury West's SOA are in the		
Bottom 10% of England	Bottom 30% of England	Top 30% of England
0%	14%	50%

4.1.4 The purpose of this domain is to capture the proportion of the population experiencing income deprivation in an area; the domain is constructed using number of Adults and Children living in families receiving:

- Income based Job Seekers Allowance
- Income Support
- Working Tax Credit
- Disabled Person's Tax Credit
- National Asylum seekers in receipt of subsistence only and accommodation support

Index of Multiple Deprivation - Income Domain

4.2 Local Area Partnership Analysis

4.2.1 The Net Average Household Income for Bury is above the North West average, and Bury West is above the regional average and the other Bury Local Area Partnerships, except for Ramsbottom, Tottington and North Manor.

(source: Model Based Estimates April 01- March 02 from the ONS)

4.2.2 Bury West has 12% of the borough's population but only has 8% of the borough's families in receipt of benefits as defined in paragraph 4.1.3.

	% of Bury Population within LAP	% People in Families in receipt of benefit
Bury East	17%	29%
Bury West	12%	8%
Prestwich	18%	18%
Radcliffe	18%	21%
RTNM	18%	8%
W&U	16%	16%

(Source: 2002/03 data from Department for Communities and Local Government)

4.2.3 13% of children in Bury West Local Area Partnership are affected by income deprivation, compared to 19% across the borough.

	% of Children Affected by Income Deprivation
Bury West	13%
Bury	19%
North West	25%
England	21%

(Source: Office of Deputy Prime Minister, Relating to 2001)

% Children affected by Income Deprivation is defined by the percentage of children that live in families that are in receipt of income support, income based Jobseeker's

Allowance, Working Families' Tax Credit or Disabled Person's Tax Credit below a given threshold.

- 4.2.4 12% of Bury West's working age population claim some form of benefits compared to 15% of the borough as a whole.
- 4.2.5 The following table identifies claimants by the hierarchy of claims; where multiple benefits are claimed then only the primary reason is recorded. The hierarchy is defined by the order of reasons appearing in the table below. Thus, for example, the table doesn't fully indicate the number of those claiming lone parent benefits as some will be counted within the Job Seeker or Incapacity Benefits categories.
- 4.2.6 Bearing this in mind, Bury West has a lower percentage of claimants across all main benefit types when compared against Bury and the North West.

	Total	Job Seeker	Incapacity Benefits	Lone Parent	Carer	Others Income related benefit
Bury West	12%	1.7%	7%	1.1%	0.8%	0.1%
Bury	15%	2.1%	9%	1.7%	1.0%	0.3%
North West	18%	2.8%	10%	2.4%	1.2%	0.4%
England	14%	2.5%	7%	2.1%	1.0%	0.4%

(Source: Number of claimants May 2006 – DWP Information Directorate, Working Age Population estimates Mid 2004 – Office of National Statistics)

- 4.2.7 Across the borough 26% of those entitled to State Pension are claiming some level of Pension Credit. (Pension Credit is a payment to those pensioners whose income is below a certain level set by law). This is a similar level to the North West. Bury West has 20% of pensioners claiming some level of pension credit.

	Pensioners claiming pension credit
Bury West	20%
Bury	26%
North West	28%
England	26%

(Source: Number on Pension Credit May 2006 – DWP, Number of State Pension May 2006 - DWP)

4.3 SOA Analysis

4.3.1 The table shows four broad areas of Income Deprivation; how many families it affects, what proportion of children it affects, what proportion of working aged adults are claiming benefits and the proportion of pensioners that qualify and apply for pension credit. Each of these areas of Income Deprivation is correlated with the others; in the same SOAs you find high levels of children affected by Income Deprivation, high levels of working adults claiming benefits and high levels of pensioners claiming pension credit.

4.3.2 Where Income deprivation is present in a neighbourhood the statistics show that it affects all groups in that community; families, children, working age adults and pensioners.

SOA	SOA Description	Borough Rank	No. People in Families in receipt of benefits	% of Children that are affected by Income Deprivation	% Working Age Adults claiming benefits					% on Pension Credit
					Job Seeker	Incap. Benefit	Lone Parent	Carer	Other Income Related	
E01004966	Brandlesholme Estate	12	410	41%	3.4%	15.7%	5.1%	1.7%	0.6%	30%
E01004948	Daisyfield	30	285	29%	3.3%	12.6%	2.3%	1.4%	0.0%	34%
E01004961	Woodhill	41	250	22%	1.5%	7.7%	3.6%	1.0%	0.0%	33%
E01004947	Whitehead Park	44	200	17%	3.2%	9.2%	2.2%	0.5%	0.5%	40%
E01004964	All Saints	50	150	16%	2.1%	8.8%	1.0%	1.0%	0.0%	33%
E01004962	Woolfold	76	95	9%	2.1%	6.7%	0.5%	0.5%	0.0%	30%
E01004953	Elton Vale	84	80	6%	0.5%	4.3%	0.0%	0.5%	0.0%	24%
E01004951	Bolton Road	104	50	4%	2.1%	5.9%	0.0%	0.5%	0.0%	14%
E01004965	Brandlesholme North	107	45	4%	1.1%	3.2%	0.0%	0.5%	0.0%	12%
E01004968	Kirklees	109	55	4%	1.0%	4.1%	0.5%	0.5%	0.0%	15%

5 Employment

5.1 Definition

5.1.1 14% (2) of Bury West's SOAs fall within the borough's 30% most deprived SOAs on the Economic domain of the IMD; neither of which fall in the 10% most deprived neighbourhoods.

5.1.2 57% (8) of Bury West's SOAs fall within the borough 30% least deprived SOAs.

5.1.3 When compared to England far fewer SOAs appear in the 30% least deprived.

% Bury West's SOA are in the		
Bottom 10% of Bury	Bottom 30% of Bury	Top 30% of Bury
0%	14%	57%

% Bury West's SOA are in the		
Bottom 10% of England	Bottom 30% of England	Top 30% of England
0%	14%	14%

5.1.4 This domain measures employment deprivation conceptualised as involuntary exclusion of the working age population from the world of work and is constructed of the following factors:

- Unemployment claimant count of the working age population averaged over 4 quarters
- Incapacity Benefit claimants of the working age population
- Severe Disablement Allowance claimants of the working age population
- Participants in New Deal for 18-24 who are not included in claimant count
- Participants in New Deal for 25+ who are not included in the claimant count
- Participants in New Deal for Lone Parents aged 18 and over.

5.2 Local Area Partnership Analysis

- 5.2.1 Many claimants claim multiple forms of benefit and analysis becomes confused due to double counting but the Department for Work and Pensions provides information on the primary reason why people claim benefit.
- 5.2.2 The borough of Bury has fewer people of working age claiming job seeking related benefits than the national average, but more people claiming incapacity type benefits. Bury West is below the borough average for both Job Seeking type benefits and Incapacity Benefits.

	Job Seeking Benefits	Incapacity Benefits
Bury West	1.7%	6.6%
Bury	2.1%	8.6%
North West	2.8%	9.9%
Great Britain	2.5%	6.8%

(Source: May 2006 DWP Information Directorate)

- 5.2.3 Those claiming job seeking benefits in Bury West do not differ wildly from the borough as a whole in terms of Age and Gender.

Table: Age and Gender distribution of Job Seekers Benefit Claimants

	Age Group			Gender	
	16-24	25-49	50+	Male	Female
Bury West	32%	50%	18%	73%	27%
Bury	33%	51%	16%	73%	27%
North West	33%	53%	15%	75%	25%
Great Britain	30%	54%	16%	74%	26%

(Source: May 2006 DWP Information Directorate)

- 5.2.4 The profile of those claiming Incapacity Benefit mirrors the borough profile in terms of age and gender.

Table: Age and Gender distribution of Incapacity Benefit Claimants

	Age Group				Gender	
	16-24	25-49	50-59	60+	Male	Female
Bury West	6%	47%	34%	13%	58%	42%
Bury	6%	47%	34%	12%	59%	41%
North West	6%	46%	35%	13%	58%	42%
Great Britain	6%	47%	34%	13%	58%	42%

(Source: May 2006 DWP Information Directorate)

5.2.5 Of those claiming Incapacity Benefit in Bury West 9.1% are in receipt of Severe Disablement Allowance; this is relatively consistent when compared to the borough as a whole or the North West.

	Incapacity Benefit	Severe Disablement Allowance
Bury West	90.9%	9.1%
Bury	91.1%	8.9%
North West	90.9%	9.1%
Great Britain	89.7%	10.3%

(Source: May 2006 DWP Information Directorate)

5.2.6 And there appears to be little difference in terms of how long people have been on Incapacity Benefit between Bury West and the rest of the borough.

	< 6 months	6 – 12 months	1 – 2 years	2 – 5 years	5+ years
Bury West	9%	6%	10%	21%	54%
Bury	8%	6%	9%	22%	56%
North West	8%	5%	9%	21%	57%
Great Britain	9%	6%	9%	22%	55%

(Source: May 2006 DWP Information Directorate)

5.2.7 In terms of the type of condition, Bury West claimants suffer less from Mental Health Care issues than the borough as a whole.

	Mental	Nervous System	Respiratory / Circulatory	Musco-skeletal	Injury / Poisoning	Other
Bury West	42%	7%	9%	19%	6%	18%
Bury	46%	6%	7%	18%	6%	18%
North West	41%	5%	9%	18%	5%	21%
Great Britain	40%	6%	8%	18%	6%	22%

(Source: May 2006 DWP Information Directorate)

5.2.8 New Deal is a scheme to enable people to get back to work. There are exceptions but generally those under the age of 25 go on to New Deal if they have been claiming Job Seekers Allowance for more than 6 months and those over 25 if they have been claiming Job Seekers Allowance for more than 2 years.

5.2.9 Bury West's working age population constitute 12% of the borough's working population, but its residents only represent 9% of the borough's New Deal participants.

	Type of New Deal			Total	
	Young People	25 year plus	Lone Parent	Number	Percentage (vs working age population)
Bury East	150	75	195	420	32% (17%)
Bury West	39	12	69	120	9% (12%)
Prestwich	45	24	108	177	13% (18%)
Radcliffe	87	36	168	291	22% (18%)
RTNM	36	18	63	117	9% (18%)
W&U	54	21	123	198	15% (17%)

(Source: May 2006 DWP Information Directorate)

5.3 SOA Analysis

5.3.1 There are large variations in the proportion of adult population claiming Job Seekers benefits and Incapacity Benefits by SOA.

SOA	SOA Description	Borough Rank	% Job Seeker	% Incapacity Benefit
E01004966	Brandlesholme Estate	18	3.4%	15.7%
E01004948	Daisyfield	31	3.3%	12.6%

(Please note the New Deal information was not available by SOA.)

5.3.2 The Job Seeker and Incapacity Benefit statistics given here are from more up to date than the data used by the IMD ranking statistic.

5.3.3 Bury West has four SOAs where the those claiming Job Seeker or Incapacity Benefits is greater than 10% of the working population. The two SOAs with stand out levels of benefit claimants are Brandlesholme Estate and Daisyfield.

6 Health

6.1 Definition

6.1.1 The Health Domain of the IMD shows 14% (2) of Bury West's SOAs fall within the borough's 30% most deprived. 57% (8) fall within the borough's 30% least deprived.

6.1.2 Bury West compares relatively well with the borough as a whole, but the borough compares poorly against England. None of the borough's SOAs fall within England's 30% least deprived neighbourhoods. Only 21% (3) of Bury West's SOA fall within England's 50% least deprived neighbourhoods.

% Bury West's SOA are in the

Bottom 10% of England	Bottom 30% of England	Top 30% of England
0%	43%	0%

6.1.3 This domain identifies areas with relatively high rates of people who die prematurely or whose quality of life is impaired by poor health or who are disabled, across the whole population. In particular it uses the following factors:

- Years of Potential Life Lost.
- Comparative Illness and Disability Ratio.
- Measures of emergency admissions to hospital.
- Adults under 60 suffering from mood or anxiety disorders.

Index of Multiple Deprivation - Health Domain

6.2 Local Area Partnership Analysis

6.2.1 Bury PCT regularly conducts a Health Survey which provides prevalence of key lifestyle factors that contribute to ill health. The data below relates to the results of this survey. Bury West is shown to perform relatively well with Bury West having the lowest percentage of people smoking more than 20 a day, the lowest percentage of people that are classified as obese and the one of lowest percentages of people that undertook no exercise.

6.2.2 Bury West does score relatively poorly on the percentage of problem drinkers, though just below the borough average.

(Source: Bury PCT Health Survey, 2005)

6.2.3 The PCT survey also provides some very high level indications of health in Bury. The results have been aggregated to Local Area Partnership level.

6.2.4 Poor Health was a self defined measure over the last 12 month period. Though this is a simple measure, the PCT Bury Health report states that "there is evidence that this measure... correlates with more

complex measures and objective assessments of health". The Bury West Local Area Partnership has a lower percentage than any other that they were in poor health.

- 6.2.5 The Department of Health defines mental health as "An individual's ability to manage and cope with stresses and challenges of life". The PCT survey included 12 questions used to measure the mental health of the population; a score is constructed from the questions and threshold has been defined over which the respondent has a potential mental health issue. Bury West has the lowest prevalence of mental health issues.

	% Poor Health	% Mental Health	% 6+ visits to GP
Bury East	9.1%	21.7%	18.7%
Bury West	7.3%	15.8%	15.6%
Prestwich	8.4%	19.1%	15.7%
Radcliffe	12.0%	21.1%	17.6%
RTNM	6.4%	16.8%	13.6%
W&U	7.7%	20.3%	18.2%
Bury	8.6%	19.3%	16.6%

(Source: Bury PCT Health Survey, 2005)

- 6.2.6 The PCT survey also requested the number of times each respondent visited their GP. Across the borough 16.6% of people visited 6 or more times. Bury West had 15.6% of people claiming they had visited their GP six or more times; the second lowest of all the Local Area Partnerships.

6.3 SOA Analysis

- 6.3.1 6 of the 14 SOAs are in the lowest 30% of England's SOA.
- 6.3.2 Comparative Illness Index on average should equal 100. It measures the numbers of people on any sort of disability allowance and standardises the result by age and sex, so that SOAs with higher average age do not necessarily come out worse.
- 6.3.3 Emergency Admissions Index on average should equal 100. It measures the emergency admissions to hospital that last for more than 1 day, standardised by age and sex.

SOA	SOA Description	Borough Rank	Comparative Illness Index	Emergency Admissions to Hospital	Years of Potential Life Lost	Mental Health Indicator	Smokers 20+	% Obese	% 6+ visits to GP
E01004966	Brandlesholme Estate	21	182	153	92	1.42	6.20	12.70	15.20

E01004949	Chantlers	106	91	103	54	0.07	5.00	11.60	15.90
E01004968	Kirklees	108	94	96	60	0.48	6.20	12.70	15.20
E01004950	Lowercroft	119	79	97	56	-0.17	5.00	11.60	15.90

Lowest 10% of Bury's SOAs
Lowest 20% of Bury's SOAs
Lowest 30% of Bury's SOAs

- 6.3.4 The Years of Potential Life Lost on average should equal 100. It represents a standardised measure of potential life lost; a figure over 100 shows that more years of potential life have been lost in that area compared to the expected figure given the age/sex distribution in the area.
- 6.3.5 The Mental Health Indicator is the proportion of adults under 60 suffering from mood or anxiety disorders in each area. It is expected to be zero.

7 Education

7.1 Definition

7.1.1 21% (3) of Bury West's SOAs fall within the borough's 30% most deprived SOAs on the Education, Skills and Training domain of the IMD; none of which fall in the 10% most deprived neighbourhoods.

7.1.2 The borough as a whole does relatively well in the Education domain and so fewer SOAs appear in England's 30% most deprived.

7.1.3 50% (7) of Bury West's SOAs fall within the borough 30% least deprived SOAs.

% Bury West's SOA are in the		
Bottom 10% of Bury	Bottom 30% of Bury	Top 30% of Bury
0%	21%	50%

% Bury West's SOA are in the		
Bottom 10% of England	Bottom 30% of England	Top 30% of England
0%	7%	57%

7.1.4 This domain captures the extent of deprivation in terms of education, skills and training in a local area and is constructed from the following:

- Average points score of pupils at Key Stage 2, Key Stage 3 and Key Stage 4
- Secondary School absence rate
- Proportion of young people not staying on in school or non-advanced further education above 16
- Proportion of those aged 21 not entering Higher Education
- Proportion of working adults (aged 25-54) in the area with no or low qualifications

Index of Multiple Deprivation - Education Domain

7.2 Local Area Partnership Analysis

7.2.1 Ofsted's latest figures suggest Bury West Local Area Partnership has one of the lowest percentages of residents with no qualifications.

(Source: Ofsted, derived from Census 2001 data)

7.2.2 The following analysis identifies the differences in educational attainment of children 16 years old and under in Bury West against the borough as a whole. It does this using the 2006 SAT outcomes and identifying the proportion of pupils that achieve the national expectation level or above, at the four key stages. These are defined in the education appendix.

7.2.3 The point of the analysis is not to score schools but to give an overview of the education attainment within Bury West. To ensure the reader is not swamped with statistics, those pupils that achieved the expected level in all of the tested areas appropriate to that stage in their development have been identified, rather than report on each individual subject level. The individual statistics have been included in the appendix for completeness.

7.2.4 The analysis has been conducted on pupils that live within Bury and that attend Bury Local Authority schools. This analysis will not capture a number of Bury children that either attend non-state schools or schools out side Bury.

7.2.5 The average attainment of the pupils within the schools of Bury West is near that of the borough as a whole at each of the first two key stages. There are no secondary schools within the boundary of the Bury West Local Area Partnership.

	% pupils who achieved national expected standard or above			
	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
Bury West	77%	78%	-	-

Bury 77% 74% 63% 60%

7.2.6 The pupils that attend Bury West schools have similar attainment to the borough as a whole at Key Stage 1, and are 4% more likely to reach national standard at Key Stage 2 than the borough average.

7.2.7 At Key Stage 2 only the pupils that attend schools in Ramsbottom, Tottington and North Manor attain higher levels than the pupils from Bury West.

Rank	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
1	Ramsbottom	Ramsbottom	Ramsbottom	Prestwich
2	Prestwich	Bury West	Prestwich	Ramsbottom
3	Bury West	Whitefield	Whitefield	Bury East
4	Whitefield	Prestwich	Bury East	Whitefield
5	Radcliffe	Radcliffe	Radcliffe	Radcliffe
6	Bury East	Bury East		

7.2.8 By examining all the borough's primary schools ranked it is shown that most fall around the mid area with one very high performing school; Lowercroft Primary.

Schools ranked by percentage of pupils attaining Expected Level in Key Stage 2

(Data Sources: Quality and Advisory Service, 2006)

Primary Schools	Key Stage 1	Key Stage 2
Lowercroft Primary	97%	100%
Chantlers Primary	100%	87%
Guardian Angels' R.C. Primary	66%	85%
Our Lady of Lourdes R.C. Primary	79%	80%
Greenhill Primary	97%	79%
Woodbank Primary	77%	77%

Old Hall Primary	56%	68%
Elton Community Primary Alston Street	48%	64%
St. Stephen's C.E. Primary	58%	60%

7.2.9 There are no secondary schools in Bury West.

7.2.10 Taking the view from the perspective of pupils' home address rather than the schools' address, the attainment statistics are no longer artificially inflated by the high achieving schools attended in the main by those pupils from outside the Local Area Partnership. The difference between the analysis done by residence rather than school attended is minimal for Key Stage 1 and Key Stage 2. Given primary school children are less likely to travel significant distance to school, the minimal difference makes sense.

Bury West: % pupils who achieved national expected standard or above

	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
Place of residence	77%	78%	67%	67%
Place of education	77%	78%	-	-

7.2.11 There is no difference between Bury West and the borough at key stage 1, but for Key Stage 4 it is 7%.

% pupils who achieved national expected standard or above

	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
Bury West	77%	78%	67%	67%
Bury	77%	74%	63%	60%

7.2.12 And with this approach the pupils from Bury West are shown to be the third highest attaining students when compared to the other Local Area Partnerships.

Rank	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
1	Ramsbottom	Ramsbottom	Ramsbottom	Prestwich
2	Prestwich	Whitefield	Prestwich	Ramsbottom
3	Whitefield	Bury West	Bury West	Bury West
4	Bury West	Prestwich	Whitefield	Whitefield
5	Radcliffe	Radcliffe	Radcliffe	Radcliffe
6	Bury East	Bury East	Bury East	Bury East

7.2.13 Bury West has a relatively small ethnic minority, and so analysis by ethnicity group is not a reliable measure but those that have classified themselves as White British (or English) have been compared against the remainder of the population to identify as issues.

7.2.14 Though we need to bear in mind the small sample sizes of the Non-White group (shown in the brackets) the table shows that there does not appear to be a difference in attainment levels between the White

British and Non-White British groups for Key Stage 1. By Key Stage 4 the difference is 9%.

Bury West:

% pupils who achieved national expected standard or above

	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
White British	76%	76%	67%	67%
Non White British	77% (22)	74% (19)	69% (16)	56% (16)

7.2.15 The White British show minimal distinction between Bury West results and the rest of the borough at Key Stage 1 but a difference in attainment levels exists for Key Stages 3 and 4. For the Non-White British group a difference exists at each of the key stages, but it should be noted that the small sample sizes might make the results for the Bury West Non White group unrepresentative.

White British:

% pupils who achieved national expected standard or above

	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
Bury West	76%	76%	67%	67%
Bury	79%	76%	65%	61%

Non British White:

% pupils who achieved national expected standard or above

	Key Stage 1	Key Stage 2	Key Stage 3	Key Stage 4
Bury West	77% (22)	74% (19)	69% (16)	56% (16)
Bury	70%	66%	55%	53%

7.2.16 Bury West has the equal lowest unauthorised absenteeism rate of any Local Area Partnership for secondary school pupils, and around the average authorised rate of absenteeism.

Levels of Absenteeism (secondary schools in Key Stage years)

	Unauthorised	Authorised	Total
Bury East	0.8%	7.5%	8.3%
Bury West	0.5%	6.4%	6.9%
Prestwich	1.8%	6.2%	8.0%
Radcliffe	0.7%	5.9%	6.6%
RTNM	0.5%	4.9%	5.4%
W&U	1.6%	6.9%	8.5%
Overall	1.0%	6.3%	7.3%

7.2.17 The overall level of absenteeism is not significantly different for the White British and Non White British.

Levels of Absenteeism within Bury West

	Unauthorised	Authorised	Total
White British	0.5%	6.3%	6.8%
Non White British	0.4%	6.7%	7.0%

7.3 SOA Analysis

7.3.1 Data within an SOA is often reliant on relatively small samples; the average number of pupils taking their key stages in each SOA is around 20, but some are as low as 8. Consequently the percentages must be regarded with caution as unrepresentative numbers could easily occur. Unrepresentative numbers are not unlikely to appear across the full range of indicators shown in the table and so for a SOA that consistently appears in the bottom 30% there is enough evidence to further investigate.

7.3.2 There are some large variances of statistics between the SOAs within Bury West; Brandlesholme Estate had only 22% stayed on at further education, 36% of pupils achieved 5 grade A*-C GCSEs and had an absenteeism rate of 11.3%, whereas Seddons Farm had 47% staying on to further education, 89% achieved 5 A*-C grade GCSEs and had an absenteeism rate of 4.2%.

SOA	SOA Description	Borough Rank	Not Staying on Furth. Ed.	No Quals	Key Stage Targets				Absenteeism
					KS1	KS2	KS3	KS4	
E01004966	Brandlesholme Estate	22	78%	53%	65%	64%	36%	36%	11.3%
E01004948	Daisyfield	26	63%	51%	62%	67%	55%	55%	8.1%
E01004962	Woolfold	31	82%	49%	61%	71%	57%	76%	6.0%
E01004947	Whitehead Park	38	74%	49%	70%	72%	63%	59%	7.7%
E01004964	All Saints	46	73%	48%	94%	61%	50%	50%	9.2%
E01004961	Woodhill	62	66%	41%	61%	66%	45%	55%	12.5%
E01004953	Elton Vale	90	59%	34%	88%	85%	90%	83%	5.8%
E01004951	Bolton Road	94	67%	33%	73%	100%	75%	73%	7.7%
E01004968	Kirklees	95	63%	35%	86%	87%	65%	81%	4.4%
E01004967	Brandlesholme East	108	69%	30%	83%	88%	90%	61%	4.6%
E01004950	Lowercroft	109	41%	31%	92%	100%	80%	73%	3.9%
E01004949	Chantlers	111	44%	27%	94%	86%	88%	76%	4.3%
E01004965	Brandlesholme North	113	56%	28%	88%	92%	90%	82%	4.1%

8 Housing and Services

8.1 Definition

8.1.1 36% (5) of Bury West's SOAs fall in Bury's 30% most deprived neighbourhoods In the Housing and Services domain of the IMD.

8.1.2 29% (4) of Bury West's SOAs appear in Bury's 30% least deprived neighbourhoods.

8.1.3 The borough as a whole does well on this measure and none of Bury West's SOA fall within England's 30% most deprived neighbourhoods.

% Bury West's SOA are in the		
Bottom 10% of Bury	Bottom 30% of Bury	Top 30% of Bury
7%	36%	29%

% Bury West's SOA are in the		
Bottom 10% of England	Bottom 30% of England	Top 30% of England
0%	0%	64%

8.1.4 The purpose of this Domain is to measure barriers to housing and key local services. The indicators fall into two sub-domains: 'geographical barriers' and 'wider barriers' which also includes issues relating to access to housing, such as affordability.

- Household overcrowding (2001).
- LA level percentage of households for whom a decision on their application for assistance under the homeless provisions of housing legislation has been made, assigned to SOAs.
- Difficulty of Access to owner-occupation.
- Road distance to GP premises, supermarket or convenience store, primary school and post office.

8.2 Local Area Partnership Analysis

- 8.2.1 The level of household over crowding and the ease of access to owner occupation are key drivers in the Housing & Services domain. Bury West has marginally less households with overcrowding issues than the borough average.

	% Households Overcrowded
Bury East	8.0%
Bury West	4.4%
Prestwich	5.1%
Radcliffe	5.5%
RTNM	3.4%
W&U	3.4%
Bury	4.9%

(Source: Office of the Deputy Prime Minister, derived from 2001 Census data)

- 8.2.2 The latest house price to income ratio is not readily available and old data may not be truly representative as the house price inflation differs significant by area. As a proxy the percentage of households in owner-occupation situations has been calculated. This identifies Bury West as having one of the highest levels of ownership.

	<i>Owned</i>	<i>Social Rented</i>	<i>Private Rented</i>	<i>Other</i>
Bury East	64%	25%	9%	2%
Bury West	82%	12%	5%	1%
Prestwich	77%	14%	9%	0%
Radcliffe	69%	19%	7%	5%
RTNM	85%	8%	5%	2%
W&U	80%	13%	6%	0%
Bury	76%	16%	7%	2%

(Source: 2001 Census)

8.2.3 Another key element of the Housing and Services domain is the access to the key services; GP, Primary School, Post Office and Supermarket. It should be noted that this is a measure of distance, and does not take account of the ability to access these resources or indeed their quality.

8.2.4 Bury West does marginally better than the borough average on each of the measures. The GP data is available but the results do not seem to tally with the reality in the borough – the data is currently being checked with the PCT.

	Distance (km)			
	GP	Primary School	Post Office	Supermarket
Bury East	X	0.55	0.61	0.78
Bury West	X	0.67	0.65	0.76
Prestwich	X	0.70	0.71	0.78
Radcliffe	X	0.68	0.76	1.12
RTNM	X	0.81	0.82	1.29
W&U	X	0.69	0.70	0.91
Bury	X	0.68	0.71	0.95
North West	X	0.77	0.84	1.33
National	X	0.90	0.94	1.59

(Source: Office of Deputy Prime Minister, 2004)

8.2.5 Other elements not included in the domain measure are access to leisure facilities. This measures the percentage of households within 1 mile of the facility in an urban area, or 5 miles within rural areas. Bury West does very well in terms of access on most facilities with only facility for which 100% of residents are not within the specified distance is a Sports / Health Centre.

	Sports / Health Centre	Football Pitch	Cricket Pitch	Tennis Court	Bowling Green
Bury East	93%	99%	68%	59%	100%
Bury West	87%	100%	100%	100%	100%
Prestwich	93%	95%	82%	95%	97%
Radcliffe	92%	100%	94%	17%	100%
RTNM	61%	99%	98%	100%	97%
W&U	100%	100%	100%	84%	96%
Bury	88%	99%	90%	74%	98%

(Source: Bury Council, Environment & Development Services, 2006)

8.3 SOA Analysis

8.3.1 Distance to the nearest GP appears to be wrong is currently being checked by the PCT.

SOA	SOA Description	Borough Rank	Distance to Service (km)				% Households Overcrowded
			GP	Primary School	Post Office	Supermarket	
E01004965	Brandlesholme North	11	x	0.9	1.02	1.01	4
E01004967	Brandlesholme East	14	x	1.4	0.85	0.86	1

8.3.2 Crucially we do not have any data relating to access to the ability to purchase a house data (e.g. house price to income ratio) which would be a key driver of the domain statistic.

9 Living Environment

9.1 Definition

9.1.1 21% (3) of Bury West's SOAs fall in Bury's 30% most deprived neighbourhoods on the Living Environment domain of the IMD. All of these fall into the 10% most deprived.

9.1.2 71% (10) of Bury West's SOAs appear in Bury's 30% least deprived neighbourhoods.

% Bury West's SOA are in the		
Bottom 10% of Bury	Bottom 30% of Bury	Top 30% of Bury
21%	21%	71%

% Bury West's SOA are in the		
Bottom 10% of England	Bottom 30% of England	Top 30% of England
21%	29%	43%

9.1.3 This domain focuses on the deprivation with respect to the characteristics of the living environment and has two themes, the indoor living environment and the external environment, specifically:

- Social and private housing in poor condition.
- Houses without central heating.
- Air quality.
- Road traffic accidents involving injury to pedestrians and cyclists.

9.2 Local Area Partnership Analysis

9.2.1 Bury West has the lowest level of households in poor condition; this is defined by the ODPM “Decent Homes Standard” and also scores relatively well in terms of percentage with central heating.

(Source: ODPM, 2006)

SOA Analysis

- 9.2.2 There is strong correlation between the two “housing” environmental measures.
- 9.2.3 Given how well Bury West performs on the “housing in poor condition” and “% central heating” measures overall it is surprising to see three SOAs that score relatively poorly. In the other SOAs Bury West scores particularly well.
- 9.2.4 Road traffic accidents are not available by SOA.
- 9.2.5 We have the Air Quality Indicators used in the IMD. This indicator does not show that the air quality in Bury West is particularly poor.

SOA	SOA Description	Borough Rank	Housing in Poor Condition Indicator	Central Heating %	Air Quality Indicator
E01004947	Whitehead Park	4	0.51	81.32	1.22
E01004964	All Saints	8	0.49	84.48	1.22
E01004962	Woolfold	10	0.46	81.85	1.22
E01004948	Daisyfield	41	0.4	91.1	1.22
E01004951	Bolton Road	96	0.26	97.79	1.12
E01004966	Brandlesholme Estate	97	0.27	95.7	1.05
E01004953	Elton Vale	103	0.26	96.43	1.12
E01004968	Kirklees	105	0.25	91.53	1.05
E01004965	Brandlesholme North	106	0.21	98.59	1.08
E01004961	Woodhill	108	0.25	95.98	1.22

10 Crime

10.1 Crime Domain

10.1.1 None of Bury West's SOAs fall in Bury's 30% most deprived neighbourhoods on the Crime domain of the IMD.

10.1.2 57% (8) of Bury West's SOAs appear in Bury's 30% least deprived neighbourhoods.

10.1.3 The borough as whole does poorly on this measure and none of Bury West's SOAs fall within England's 30% least deprived neighbourhoods.

% Bury West's SOA are in the		
Bottom 10% of Bury	Bottom 30% of Bury	Top 30% of Bury
0%	0%	57%

% Bury West's SOA are in the		
Bottom 10% of England	Bottom 30% of England	Top 30% of England
0%	43%	0%

10.1.4 This Domain measures the incidence of recorded crime for four major crime themes, representing the occurrence of personal and material victimisation and is constructed of:

- Burglary.
- Theft.
- Criminal damage.
- Violence.

10.2 Local Area Partnership Analysis

10.2.1 Bury West has relatively low levels of crime when compared to the borough. Within all of the five crime categories shown below Bury West has a lower than average crime rate. The perception of crime also shows that Bury West has a lower than average fear of crime.

	Crimes per 1000					% do not feel safe	
	Burglary	Business	Criminal Damage	Theft	Violence	% Day	After dark
Bury East	23.8	10.1	34.7	67.9	45.7	3.5%	29.9%
Bury West	10.4	4.1	18.1	22.9	13.2	2.1%	20.2%
Prestwich	15.6	5.1	19.8	41.1	11.5	2.7%	30.4%
Radcliffe	19.3	2.5	28.9	33.3	18.5	2.4%	27.2%
RTNM	9.9	0.9	18.9	21.4	9.4	1.0%	14.4%
W&U	15.9	2.5	21.4	33.0	12.8	2.6%	24.8%
Bury	16.2	4.2	24.0	37.4	18.8	2.4%	24.8%

(Source: Crime counts from the Community Safety Team Apr05-Mar06, Perception of crime from Bury PCT Health Survey, 2005)

10.2.2 Violence is less likely to be undertaken under the influence of alcohol or drugs in Bury West compared to the rest of the borough.

	Bury West			Bury		
	Incidents per 1000	% Drug Influence	% Alcohol Influence	Incidents per 1000	% Drug Influence	% Alcohol Influence
Burglary	10.4	0.0%	0.0%	16.2	0.0%	0.0%
Business	4.1	0.0%	0.0%	4.2	0.0%	0.1%
Criminal Damage	18.1	0.0%	1.1%	24.0	0.0%	1.5%
Theft	22.9	0.0%	0.5%	37.4	0.1%	0.3%
Violence	13.2	0.4%	11.5%	18.8	0.8%	14.3%

(Source: Community Safety Team, Apr05-Mar06)

10.2.3 In Bury West there are 2.8 drug crimes committed per 1000 people compared to 4.1 in the borough as a whole.

10.2.4 Though the numbers of crimes per 1,000 people is lower than the average in Bury West. The percentage of crimes which involve guns are actually higher in Bury West. So much so that the rate of violent crimes with guns involved is very similar for Bury West as the borough as a whole.

	Bury West		Bury	
	Incident per 1000	% Guns Used	Incident per 1000	% Guns Used
Criminal Damage	18.1	0.0%	24.0	0.6%
Theft	22.9	0.5%	37.4	0.4%
Violence	13.2	2.5%	18.8	1.7%

(Source: Community Safety Team, Apr05-Mar06)

- 10.2.5 The number of domestic violence crimes per 1000 people is marginally higher in Bury West (2.23) than the rest of the borough (2.16).
(Source: Community Safety Team, Apr05-Mar06)
- 10.2.6 In Bury West there are 0.5 hate crimes per 1000 people compared to a borough average of 0.7 per thousand people.

10.3 SOA Analysis

10.3.1 The perception of crime figures come from the Bury PCT Health survey and were reported at Ward level. These Ward perception values were allocated to the SOAs within their boundaries

10.3.2 It should be noted that the crime statistics relate to the latest period available and so will not correlate exactly with the IMD Crime statistic.

SOA	SOA Description	Borough Rank	Burgarly per 1000	Business per 1000	Criminal Damage per 1000	Theft per 1000	violence per 1000	% who do not feel safe during the day	% who do not feel safe after dark
E01004964	All Saints	40	19.2	5.3	23	38	13	1.8%	21.2%
