Are your waste removal costs rising? Looking for a reliable waste removal contractor that can offer you great value?

Take advantage of our competitive waste and recycling collection service designed to meet your individual needs.

Switch now and save your business money!

Help the environment ... Help your business!

 recycle for Bury...Every business counts

What a waste

Sending waste to landfill cannot carry on forever. Space is running out and the cost is rapidly increasing.

Your responsibilities

As a business you are responsible, by law, for arranging the collection and disposal of the waste you produce.

What we can offer you

We can provide you with a reliable and flexible waste and recycling collection service tailored to your individual needs. As well as being competitively priced we have extensive local knowledge which helps us to respond quickly and efficiently to your requirements.

We offer:

- regular collections;
- competitive rates;
- fixed price contracts;
- flexible payments;
- no hidden charges;
- a variety of modern and hygienic containers;
- lockable metal bins;
- free no obligation advice on your legal responsibilities and how to reduce costs;
- free waste transfer notes; and
- experienced and fully trained staff.

Don't let your waste go to waste

If you would like to take the first step to reducing and recycling your waste as well as making your business more sustainable, please contact our Waste Management Service to discuss your individual requirements and request a quote.

Why recycle?

- To send less waste to be buried in the ground at landfill sites where space is rapidly running out.
- To save valuable resources by helping to turn your waste into new products.
- To help the environment.
- To save your business money.

The more you recycle the more you could save in disposal costs.

Let us help you manage your waste

To assist you with managing your waste and recycling more we can carry out a free waste audit on your behalf. This will help you decide which containers you need, what size they should be and where it will be best to store them.

- For details of the containers we provide and what you can put in them - see the back page of this leaflet.
