 9 Howarth Tom, bleacher and dyer

## Bury Corporation—Gas Department.

**I**N order to encourage the use of Gas for Steam Raising and Circulating Boilers the Corporation has now adopted a very much reduced scale of charges for Gas used for this purpose.

The scale is as follows :—

	Price per 1,000 cu. ft.	
	s.	d.
<b>Annual Consumption.</b>		
400,000 cu. ft., and not exceeding 600,000 cu. ft. ...	1	9
600,000 cu. ft., and not exceeding 750,000 cu. ft. ...	1	6
Exceeding 750,000 cu. ft. ... ..	1	3

**Subject to 2½% discount for prompt payment.**

Manufacturers and others interested may obtain full details relating to the advantages to be gained by the use of Gas for the above purposes from the Commercial Manager at the Gas Showrooms. The Gas Committee hopes that where new installations or extensions are proposed that the use of Gas may be given consideration, as they are satisfied that at the prices now in force the use of Gas for Steam Raising is a most economical proposition.

The Gas Committee of the Bury Corporation has adopted a new scale of Gas charges for ordinary consumers which became operative on the 1st July, 1935.

Details of the new scale are as follows :—

	Price per 1,000 cu. ft.	
	s.	d.
<b>Yearly Consumption.</b>		
The first 60,000 cu. ft. ... ..	3	1
The next 40,000 cu. ft., that is over 60,000 cu. ft. up to and including 100,000 cu. ft....	2	9
The next 150,000 cu. ft., that is over 100,000 cu. ft. up to and including 250,000 cu. ft....	2	6
The next 150,000 cu. ft., that is over 250,000 cu. ft. up to and including 400,000 cu. ft. ...	2	3
The next 200,000 cu. ft., that is over 400,000 cu. ft. up to and including 600,000 cu. ft....	1	9
The next 150,000 cu. ft., that is over 600,000 cu. ft. up to and including 750,000 cu. ft....	1	6
Over 750,000 cu. ft.... ..	1	3

**Subject to a Discount of 2½% for prompt payment.**

Consumers will realise that the above scale is intended to encourage a larger consumption of Gas, and you are specially asked to consider the installation of further Gas appliances or to make greater use of those you at present possess.

In particular your attention is directed to a special rate of charge for Gas used in connection with the various types of **Domestic Hot Water Systems.** Where these Gas Heater Systems are installed the Gas used in excess of the present normal supply will be charged at the low rate of 2/- per 1,000 cu. ft.

**All classes of Gas Appliances are now on view at the Gas Showrooms in Market Street and Broad Street.**
