

# ould speak

Every hour of every day  
foul weather or fine,  
I'm always at call—  
Never off duty, never  
on holiday .....

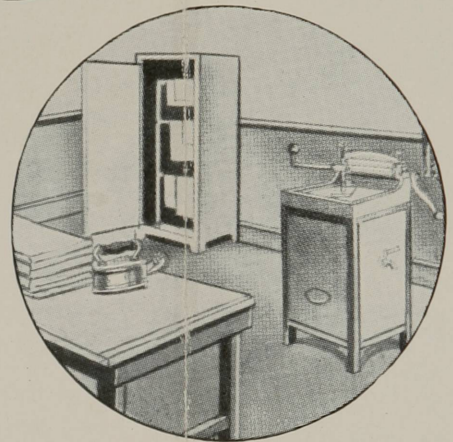

*I cook for seven  
million homes.*

*Skilled chefs  
rely on me.*

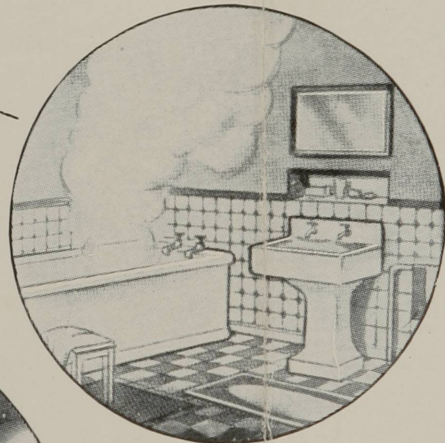

*I'm speedier than  
any other fuel.*

**I EVEN PROVIDE  
COLDNESS FOR REFRIGERATION**

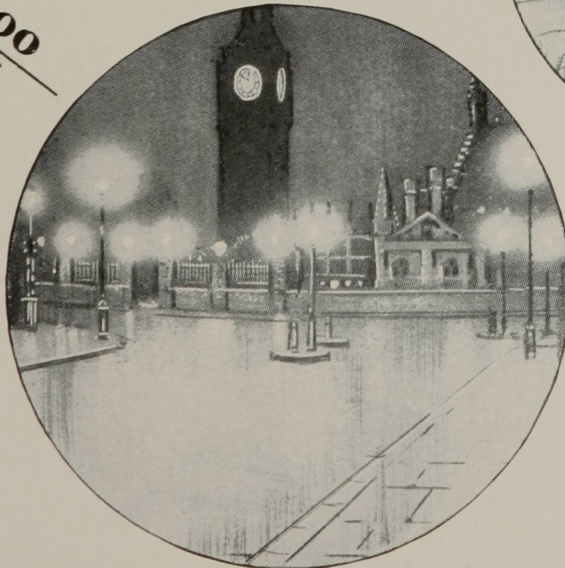

**I MAKE WASHING, DRYING  
AND IRONING EASY**

**I SEE THAT THE HOT WATER  
IS EVER-READY**

**I ILLUMINATE OVER 19,000  
MILES OF THOROUGHFARES**

*I have no superior in  
quality or cheapness of light  
for homes and streets.*

*The best thoroughfares  
in London—Whitehall,  
Parliament Square, Victoria  
Street, are all  
illuminated by me.*

er  
2,000  
ly on me  
ever let  
down

## THE BURY COUNTY BOROUGH DIRECTORY.

**T**HE Gas Department has installed in Bury, during the past  $4\frac{1}{2}$  years, approximately 3,000 Maxol Water Heaters. Householders have found it a great boon, as it yields water from warm to boiling immediately, a great asset for brewing tea and washing pots, etc.

The Heater can be fixed in the most convenient position, and anyone can operate it after being shown once. It is a thoroughly reliable appliance. The Gas Department have very generously put consumers on a reduced rate for Water Heating, and periodically attention is given to the appliance by a trained staff of Corporation Maintenance Men. The appliance is installed in clients' premises at the very low rental of 3/6 per Quarter, or in some cases, simple hire, and in addition the cost of the gas to the consumer is reduced.

The manufacturers, **Maxol Heaters Ltd.**, are a well-known Manchester firm, who have modern, up-to-date works. All their Heaters are made and tested by highly-skilled workmen.

Their Service Department is second to none, and the user has no need to wait an indefinite period for the use of the Heater in the event of some little matter requiring attention. The efficient Service Men periodically visit Bury and district, and during these visits the user is called upon. The benefits of a Maxol Water Heater are so obvious that after once being installed a common phrase among the users is—"However did I do without it?"

Let Maxol Heaters give you this chance of obtaining full benefit from your gas and you will not be disappointed. In addition to the small Sink Heater mentioned, Maxol Heaters Ltd. also cater for the bathroom. A hot bath can be had at a cost of  $\frac{1}{2}$ d. in ten minutes time. This particular Heater can also be arranged to feed the hot water to the lavatory bowl in the bathroom.

Hotels, Cafes and Works are also catered for, Boilers in different sizes to supply from 3 pints per minute upwards, to almost any amount to suit requirements, being available. Hundreds of Works, Cafes, etc., have fitted these Boilers, and proof in writing from these people as to the saving of 3/- to 4/- daily in the cost of supplying Hot or Boiling Water, is an unsolicited testimonial.

Maxol Heaters have had  $4\frac{1}{2}$  years' test in this town, and the results speak for themselves.
