GREENHALGH'S LAUNDRY LTD.

TOTTINGTON, BURY

Dry Cleaning Department

WE HAVE PLEASURE in advising you that we have now installed AT TOTTINGTON the very latest plant for our DRY CLEANING SERVICE. The Staff has been specially trained in London, and we are producing work in every way equal to that of the best West End Cleaners.

A new solvent is used which is non-inflammable, pure, antiseptic, and which leaves the clothes absolutely free from odour.

Everything cleanable, from a heavy fur coat to the most delicate dress, can be perfectly cleaned by this Solvent. It is important to note that the clothes submitted to this process suffer in no way by the rapidity which the system offers, and the cleaning is of a quality hitherto unequalled. If necessary we can return articles the same day as sent.

Every order is given individual treatment and is cleaned in fresh solvent, which is absolutely free from dirt and impurities gathered from other people's clothes.

Send us your cleaning with the next Laundry parcel.

Telephone : Tottington 72

THE advantages of having a real modern Laundry and one which will bear comparison with any existing Laundry in the country must be apparent to every housewife who takes advantage of these necessary helps to the domestic life.

In these days when the household drudgery is reduced to a minimum there is a higher regard for an intelligent interpretation of wifely duties, the distasteful laborious washing days and the consequent fraying of husbands' tempers is a relic of the past, and the weekly visit of the laundryman, representing as he does the modern organisation of a useful, necessary industry, is always welcome to the home where order and enlightenment prevail.

But there is a diversity of Laundries, some of which are the products of enterprising management whose vision of usefulness and service to their clients includes the adoption of the latest and most up-to-date machinery and every method which ensures complete satisfaction.

There is no doubt that **Messrs. Greenhalgh's Laundry Ltd.** answer in every detail to the foregoing description. Their adoption of the very latest Plant for Dry Cleaning is a proof of their efficiency, and the fact that they have not studied expense in endeavouring to make the best possible use of that plant by sending members of their staff to be trained in London is an evidence of the thoroughness with which all their business is conducted.

The Dry Cleaning of Men's Suits is not so generally adopted here as in America, where it is usual to dry-clean a suit until its last usefulness is apparent, but wherever Dry Cleaning is resorted to, it makes possible the "life" of a suit more than three times its usual longevity. The writer has proved this from actual experience, and it has the advantage of always bearing that smartness which is the pride of all self-respecting men.

It does not matter what article of dress it may be, a heavy fur coat or the most delicate dress, **Messrs. Greenhalgh's Laundry Ltd.**, can be trusted to return it in such a condition that the customer will express satisfaction with the wonderful results obtainable by this new process.

If the public generally realised all the advantages of Dry Cleaning, and the fact that clothes do not suffer by the process, they would adopt it as an economy.

We would advise all our readers to take advantage of all the facilities which **Messrs. Greenhalgh's Laundry** have to offer in this direction.
