### HOMES OF TO-DAY

demand a higher standard of comfort, beauty and convenience than ever, both in parlour or kitchen. The fireplace is the focal point of the room; from this point radiates the hospitality that makes a house into a home. Thus it is true to say that the fireplace is the very heart of the home. However fine the decoration of the rooms, however tasteful the furniture, the whole effect can be ruined by a poor fireplace. Design, Colour, Quality, Efficiency, Economy, and Price are important factors which should be borne in mind.

You are cordially invited to call and inspect our showrooms. We have the finest selection in the district.
