ADDRESS.

IN the compilation of the BURY DIRECTORY great care has been taken to ensure correctness; and valuable assistance has been given by Overseers and others residing in the respective Townships, with whom each sheet has been revised before going to press.

Some apology may be deemed requisite on account of the delay in publication. This has been occasioned by the amount of correspondence; the frequent personal visits to the places mentioned; and the great increase of business consequent upon the issue of the Prospectus. This delay, however, will not occur in future.

The suggestions of Subscribers, tending to the improvement of the work, will be gladly received.

The scarcity of Subscribers, as compared with the low price at which the work was announced, would not have warranted its publication; but a firm conviction that it would ultimately be found indispensable, and become remunerative, prompted the course which has been taken.
