The Welly Community Cafe

The Welly Community Café is a Project established by Bury Employment Support and Training (Bury EST) to help disabled and disadvantaged residents of Bury by offering supported training and work experience opportunities.

Our buffets are prepared with locally sourced ingredients where possible so that we can provide you with the freshest quality produce. Some of our cakes are also made by our customers.

We always look to support our customers to maximise their potential by offering opportunities to learn new skills and provide appropriate training to progress them to become more confident and independent and build their self-esteem.

Whilst we appreciate that employment is not a realistic option for everyone, we believe everybody has the ability to move forward and learn new skills. Our tailored support offers customers the opportunities to undertake new activities and develop themselves.

By choosing us you are helping to support your local community's most vulnerable customers.

Thank you for your support.
