

ARE YOU OR A FAMILY MEMBER MISSING OUT ON EXTRA INCOME?

Pension Credit is extra income you can receive from the Government if you meet the following criteria:

- **You have reached State Pension age.**
(in a couple, BOTH need to have reached State age)
- **You are single and have a weekly income below £201.05.**
(increasing to £218.15 April 2024)
- **You are a couple and have a weekly income of £306.85.**
(increasing to £332.95 in April).
- This increases if you claim certain disability benefits or have caring responsibilities.
- Even those with savings may qualify for Pension Savings Credit

If you or your family member qualify and claim, Pension Credits can help towards housing and living costs as well as food and energy bills.

And those over 75 also qualify for a free TV licence.

It only takes minutes to see if you or your family member qualify.

Just go to the online calculator at - <https://www.gov.uk/pension-credit-calculator>

You can make a claim online at <https://www.gov.uk/pension-credit/eligibility>

Or by calling the **Freephone** Pension Credit claim line on **0800 99 1234**.
