

The FREE Digital Sensory Show

Phoebe's Green Christmas

Award-winning children's theatre charity, Embracing Arts, presents their flagship festive production: Christmas for Kids. First offered in 2009, Christmas For Kids' sensory, interactive shows have been enjoyed by over 46,000 beneficiaries across the UK. This year marks their 6th FREE digital show...

Phoebe's Green Christmas

Phoebe the puppet has been thinking about her footprint - and not just the one she leaves in the snow! Inspired to do her bit for the planet, she Reduces, Re-uses and Recycles in as many magically inventive ways as possible. From making special gifts, to putting a new spin on classic traditions, we join Phoebe as she tries to give her friends the best (and kindest) Christmas ever!

'Phoebe's Green Christmas' is a **FREE** sensory series specifically designed for **neurodiverse** children, those labelled **PMLD** and children with **life-limiting illness**.

The show's digital format means it can be enjoyed in spaces where children and their families feel most **safe** and **supported**.

About the Show

'Phoebe's Green Christmas' is an interactive, sensory-based series bursting with music, puppetry, colourful visuals and much more!

Accompanying the series are **Resources E-Packs**, designed to support parents, teachers and carers to become the 'Facilitators' of the show. Our resources guide those facilitating on how to bring sensory elements to life for children with complex needs or life-limiting illness and provide opportunities for engagement, communication and positive memory making.

Collaborating Partners

The show's **Resource E-packs** are made in collaboration with organisations from across the SEND network and beyond - providing lots of festive further learning activities and craft ideas. Collaborating partners include:

Willow's Sensory Service
+
Chef Tim Fisher
